OCEANIC REDUCES LOCAL PASSENGER RATE BODY OF REV. SHIELDS' CHILD RECOVERED FROM PARSONAGE RUINS

ALAMEDA FARE IS \$65 AND \$110

The Oceanic Steamship Company has reduced its transportation rate on the Alameda, leaving here on June 24th, the rate for first class passengers will be \$65 one way and the round trip rate \$110.

The matter of reduced rates has been under discussion by the Oceanic company for many months and it is stated that the local agency has always been in favor of the movement. Finally the anticipations were rewarded by a cablegram received yesterday authorizing the agents to make the announcement that, beginning with the June trip, the reduced figures will be put in force.

The lower rates on the old reliable liner will be accepted by the Honolulu people as a step in the right direction, and likely to increase the travel on the local line. Many people have felt that a lower rate would bring more people to the islands. The belief has been general that with the passenger rate the same as that ruling on the big liners, people wait for the larger ships, although there is no getting around the fact that the Alameda is a first class steamer. LANE MAY RESIGN AS VICE-CHAIRMAN

The departure of A. G. M. Robertson and J. C. Lane to Chicago as delegates to the National Convention will probably cause some changes in the make-up of the Republican Central Committee. As it happens, Robertson is the chairman and Lane the vice chairman of the Central Committee, and they, as well as the other members of that body, are at present worrying about the fact that there will be no one to call the committee together should occasion arise, in case no arrangement is made before Robertson and Lane depart.

"The only way I can see out of it is to have either Robertson or myself resign," said Lane this afternoon. "I think that it would be best that I resign as vice chairman, though I can still remain as a member of the committee. In that case I want to have W. R. Farrington appointed vice chairman in my place so that he can take charge while Alex and I are away. I have spoken with several members about this matter, and they all feel the same way about it as I do."

Burned To Death

(Special Bulletin Wireless)
Hilo, Hawaii, April 22, 1:55 P. M.—The remains of the Shields baby were found in the ruins of the parsonage, and will be buried today. An investigation is in progress.

(Special Bulletin Wireless)
Hilo, Hawaii, April 22.—The home of Rev. Curtis Shields, pastor of the Foreign Church, was burned to the ground at 4 o'clock yesterday afternoon and a Japanese baby lost its life in the flames.

There were a Japanese woman and three children in the house at the time it was discovered on fire. The woman saved the two oldest, but the youngest was upstairs and the house burned so rapidly that she was unable to reach it and the child was burned to death.

The parsonage of the Hilo Foreign Church was built in 1898 at a cost of over \$3000. It was insured for \$2,500 in the Liverpool, London Globe Insurance Company, of which Bishop & Co. are the local agents.

MASCOT POSTPONED

The first performance of the "Mascot" will have to be postponed. This is the fact on account of the condition of Mrs. Crook's voice. She has been ordered by her physician not to sing, and that settles it.

Mrs. Crook had the misfortune to contract the prevailing cold and she is so hoarse she can hardly speak. To sing is out of the question.

Mr. Herzer stated this morning that the tickets already bought will hold good for the performance which will certainly come off next week.

Prof. N. M. Lewis and son Charles will render a piano duet entitled "The Overture of William Tell," by Gottschalk, in connection with the reception to Bishop Harris in the Methodist Church at 2 o'clock tomorrow. The public is invited.

The trustees of the Chamber of Commerce will give an informal luncheon tomorrow at noon, at the Commercial Club, in honor of Admiral Very.

CAVALRY POST ON LEILEHUA PLAINS

"With reference to the utilization of the Leilehua tract of land, my understanding is, on inquiry of the Chief of Staff, that it is the intention to station a regiment of cavalry at this place and that a regimental post will be built."

The above is an extract from a letter received by Secretary Wood of the Promotion Committee from one of the highest military authorities at Washington, whose name it has been deemed advisable to withhold from publication at present, but whose position leaves no doubt as to the value of the information conveyed.

For some time past the Territory has been urging the authorities at Washington to have the Leilehua tract, or at least part thereof, given back to the Territory for settlement purposes, by the War Department, which now holds it for a military reservation. However, should a cavalry post be established there and the splendid plain at Leilehua become a permanent advantage for a part of this kind, the benefit for the Territory in general would be much greater than if the land were doled back to it. Furthermore, it is quite probable that only part of the reservation will be needed for the post, and that any consequence the Territory may receive the remainder of the land.

DENIES "NEGLECT" FLEET COMMITTEE OF MRS. KASSEBEER MEETS TOMORROW

Dr. Clark States She Received Every Attention
Hawaii Wants Whole Fleet; Will Take One Vessel

"As for any statement of neglect in the case of Mrs. Dora Kassebeer, it is a falsehood. She received the best attention that we could give."

The above is the statement made by Dr. G. W. Clark, surgeon of the O. S. S. Alameda, in regard to statements that Mrs. Kassebeer died in this city on the 20th inst., under circumstances which lead friends to believe neglect while she was sick on the Alameda led to the fatality. The statements are flatly contradicted, not only by Dr. Clark, but by other officers of the steamer as well. He objects to the coloring given these statements, indicating that the woman lay in a stateroom bunk for days.
